13. Plan of action chalked out by the IQAC in the beginning of the academic year towards Quality Enhancement and outcome achieved by the end of the academic year

| Plan of Action   | Achivements/Outcomes  |  |
|--|---|--|
| Motivate the students to use the MOOC platform   | The no of students taking the courses<br>on course era NPTEL increased which<br>opened a new platform of learning.<br>Total Registration 3564 and the<br>Students who completed the course<br>successfully is 307 |  |
| Motivate and support the faculty to<br>improve there skill set by attending<br>different workshop seminar and weibinar | Faculties have attended more than 200<br>different programs on technical and<br>skill development   |  |
| Organization of the soft skill tarining<br>programs for students in association<br>with Industry                       | The additional traing received by the<br>studnts which helped to increase the<br>number of placement count and the<br>package of the student  |  |
| Increasing the association with industry   | College ranked in Platinium Category by the AICTE-CII survey  |  |
| Monitoring the attendance and lecture conduction by AMC  | Improved the average attendance and the academic results  |  |
| Vie  | w File  |  |
| 14. Whether AQAR was placed before statutory body ?  | No  |  |
| 15. Whether NAAC/or any other accredited body(s) visited IQAC or interacted with it to assess the functioning ?        | No  |  |
| 16. Whether institutional data submitted to AISHE:   | Yes   |  |
| Year of Submission   | 2020  |  |
| Date of Submission   | 29-Jan-2020   |  |

| 17. Does the Institution have Management Information System ?                                    | Yes   |
|--|---|
| If yes, give a brief descripiton and a list of modules currently operational (maximum 500 words) | The institute has Management<br>Information System called eSamanway<br>which is developed in house. This<br>system eases the maintenance of faculty<br>personal details including faculty<br>qualification, experience, Project<br>guidance details, etc. The system has<br>student information module which<br>contains the academic and personal<br>information about the students. This<br>module turns out to be extremely useful<br>for the Guardian Faculty Member (GFM)<br>Scheme for tracking student attendance<br>and academic progress as well as for<br>the result analysis. Following modules<br>are available in eSamanway: 1.Course<br>Information System 2. Placement<br>Information System 4. Faculty<br>Information System 4. Faculty<br>Information System. The eSamanway MIS<br>is augmentedby various e Governance<br>tools such as, MOODLELMS, Tally ERP 9,<br>and AutoLib for effective information<br>management. In addition to these, the<br>Directorate of Technical Education<br>(DTE), Maharashtra facilitatesthe<br>admissions process. The Savitribai<br>Phule PuneUniversity (SPPU) provides<br>support for online recordkeeping of<br>student assessment and results |

Part B

## **CRITERION I – CURRICULAR ASPECTS**

### 1.1 – Curriculum Planning and Implementation

1.1.1 – Institution has the mechanism for well planned curriculum delivery and documentation. Explain in 500 words

Planning of the academic year is done by preparing an academic calendar with reference to the University calendar. The suggestions and corrective actions taken by Academic Monitoring Committee (AMC) during earlier academic years are also taken into account. For effective delivery and transaction of the curriculum Institute takes initiative through laboratory preparation, faculty preparation and departmental preparation. During preparation it is ensured that the system will work as a student centric and outcome-based education system. As per Training Need Analysis (TNA), required training is imparted to the faculty members well in advance so that they can practice the same. The workload distribution and portfolio allocation is declared well in advance. The consumables required for the laboratory are procured well in advance and record is maintained. Every faculty prepares a teaching-learning and assessment plan and course file for smooth execution of the teaching-learning process. The availability of all required teaching-learning material on Learning Management System (LMS) MOODLE is ensured well in advance. Sample Presentation of academic

content in the department by the faculty members before commencement of the semester is arranged and feedback from attendees is provided to the concern to improve teaching quality. The required formats for maintaining the record and monitoring is provided to all faculty members. Academic Monitoring Committee (AMC) carries out a pre-semester commencement audit. As per schedule the academic commences. All the students are enrolled for required courses on MOODLE thereby making learning material available to them; it helps the faculty member to maintain rapport with students. Before commencement of actual classes student orientation is organized to make them aware of their roles and the facilities available to achieve the required outcomes. Further students are classified as strong and weak learners based on their previous academic data. As per need, separate assignments, extra and co-curricular activities are arranged for them to fulfill Course outcome (CO), Program Specific Outcome (PSO) and Program Outcome (PO). The provision for practice classes and remedial lectures are made as per needs. Due care is taken to provide exposures to the students about professional and industrial practices through interaction with various stakeholders. Various cells and committees existing in the Institute provide assistance and value addition to the programs. The overall monitoring of academics is maintained by the Departmental and Institutional Academic Monitoring Committee (AMC). Evaluation of students is done on a continuous basis and feedback of the same is given to the students. Additional resources like virtual laboratory and self-study laboratory are made available to the students.

| 1 | .1.2 – Certificate/ Diploma Courses introduced during the academic year |                      |                          |                |   |                      |  |  |

Feedback Obtained

Online/Offline feedback is collected from following stakeholders respectively on the relevant aspects annually: Students: Curriculum, Teacher evaluation, facilities like library, laboratory, office service, cleanliness, internet facilities, etc. on the campus. Teachers: Curriculum, facilities like laboratory, internet facility, library etc. Employers: Curriculum, student quality, skills of students etc. Alumni: Curriculum and Facilities on the campus Parents: Curriculum and Facilities on the campus Analysis and cognizance: Feedback collected from stakeholders is analyzed and suggestions received are conveyed to the concerned authorities for further action and improvement. As well as Action Taken Report is available on institutional website.

2.5.2 - Reforms initiated on Continuous Internal Evaluation(CIE) system at the institutional level (250 words)

The process of continuous evaluation is employed through various tools like, assignments, online Multiple choice questions, unit test and group discussion, practical mock test and preliminary examination. Continuous evaluation helps the student to deal with the practical difficulties related to the subject, think about alternative and creative solutions, and improve communication skills. Laboratory work assessment and mock orals are conducted regularly to ensure their practical knowledge. This provides basis to evaluate student performance. In addition to conventional method of evaluation, group discussion, field studies, debates, seminars, study tours, competition on different topics are used for indirect assessment. Result analysis of internal assessment is carried out to know CO-PO mapping which help to improve the student's overall progress. We always do the outcome based evaluation. Multiple Choice Questions (MCQ'S) online test help to evaluate the students basic understanding of the subjects. This has enhanced effectiveness, efficiency and transparency in the evaluation process. Unit test is one of the most commonly used tools to evaluate the performance of the students periodically. Continuous assessment is used for practical assignments. Preliminary Examination reflects preparation level of students for final examination. These formative and summative approaches adopted by the institution to measure student progression have resulted into, better participation of students in teaching learning process. This overall process leads to significant improvement in Outcome

2.5.3 – Academic calendar prepared and adhered for conduct of Examination and other related matters (250 words)

Before commencement of each Academic Year, University gives the pathway regarding date of Commencement of each semester, Schedule of Examinations, Term end, End Semester Examination in the form of academic calendar. The Academic Calendar of the institute, based on the university guidelines and in coordination with the IQAC coordinator is then prepared. The calendar outlines the semester class work, internal examinations, term end, co-curricular and extracurricular activities. The HOD/Dean in consultation with Director assigns the courses/subjects based on faculty choice and area of specialization. Faculty member prepare course plan and course file before the commencement of semester, indicating the topics to be covered, teaching methodologies being applied and assignments given to the students with evaluation process for each allotted subject and get approved by Dean/HOD. Time table in-charge prepares the time table as per the guidelines given by the university and load distribution. Time table is then displayed on the notice boards and conveyed to the students faculty. The performance of the student is assessed on continuous basis as per guidelines prescribed by university and the schedule of the college academic calendar. The continuous internal Assessment evaluation sheet

# is shared with the students to clarify their doubts about the evaluation Process. The academic schedule prescribed is strictly adhered by all the faculties and monitored by HOD/Dean, Academic Monitoring Committee (AMC) and Director.

# 2.6 – Student Performance and Learning Outcomes

2.6.1 – Program outcomes, program specific outcomes and course outcomes for all programs offered by the institution are stated and displayed in website of the institution (to provide the weblink)

5.3.2 – Activity of Student Council & representation of students on academic & administrative bodies/committees of the institution (maximum 500 words)

The Students Council (SC) provides programs, activities and services which serve the co-curricular, cultural, social, recreational and educational interest of students at the University and Colleges. It contributes to the development of students leadership skills and experience, program planning and

development, volunteering, and fiscal management. Following is the narrative of functions and events conducted by various Committees: 1.Student's Council: Under section 40(3) of Maharashtra Universities act, 1994, this council is established every year in the Institute and it performs its duties prescribed. 2.: This committee co-ordinates various cultural activities and events throughout the year "AKRUTI" is annual social gathering which showcases cultural talent of students. Our students participate in prestigious intercollegiate competitions such as Firodiya Karandak, SPPU Karandak every year under JSPM Art Circle and bag Prizes. 3. This Committee organizes interdepartmental sports events. Our students actively participate in various sports in inter collegiate, inter university, state level. 4. Annual magazine will be published by Magazine committee. Students express their talent in the form of articles, poetry etc. This exercise imbibes societal values in students. 5.Technical Activities: Every Department is having active Student's associations like CESA (Civil Engineering Student's Association), FESA (First Year Engineering Student's Association), MESA (Mechanical Engineering Student's Association), ETSA (Electronics and Telecommunication Engineering Student's Association), and ACES (Association of Computer Engineering Students). These associations conduct various programs such as Expert lectures, Technical Quiz Competitions. Institute organizes an event Technovision every year which involves various technical activities like Paper Presentation, Technical Quiz, Robo War, Model Making etc. Each department organizes these events which motivate students to take part and enhance their technical ability. These events are recognized on State and National level. There are various committees for technical events like BAJA, SUPRA, Go-kart etc. Team of students' carryout various tasks at National and International level.Library committee: Student representation on the library committee is another avenue for the students to put up their demands about learning material which may include availability of material in time and quantity. Also, this representation helps the students to express the problems faced by them (if any) and utilization of library resources. 7.Academic Administrative Bodies: The student representatives are in almost all academic and administrative bodies of the institute such as Departmental associations, Student's council, Placement Cell, NSS, Student welfare. 8. Role of Student Representatives: Disseminate the data from the institute authorities to all understudies. Organizes Technical, Co-Curricular and Extracurricular activities. Organizes social events like NSS Camps, Road Safety Show, Green Pune Clean Pune, and Tree Plantations. To keep helpful and ragging free atmosphere in girl's hostel and institute premises. 9.EDC Cell: EDC cell motivates the students to develop the entrepreneurship qualities and produce successful entrepreneurs along with leadership qualities to enhance the ethical business practices.

### 5.4 – Alumni Engagement

5.4.1 – Whether the institution has registered Alumni Association?

#### Yes

The institute has a registered Alumni association numbered MH/1234/2017/Pune dated 28/08/2017. The Alumni association contributes actively to the welfare of the institute. Activities: • Alumni meet is organized once in a year for maintaining harmony among the alumni and the institute. • Alumni are invited for many events in the institute to witness the progress and also to share their experiences. The contributions of the Alumni Association for institutional, academic and infrastructure development are: • Many alumni assist the students through guest lectures, motivating the students by sharing their practical knowledge. • Alumni meet provide a common platform for exchange of ideas and disseminating knowledge in professional areas. • They guide the students to pursue higher studies. • Few alumni extended assistance and cooperation to the institute in its endeavors for the growth and development of institute. • Alumni Association has come forward to assist both in placement activities and quality improvement of both students and faculty members by concreting the relationship between industries and the institute. • Alumni assist the student for the internship program. • They also give the opportunity to work on live projects through sponsorship.

5.4.2 – No. of enrolled Alumni:

2926

5.4.3 – Alumni contribution during the year (in Rupees) :

222000

1

5.4.4 - Meetings/activities organized by Alumni Association :

### **CRITERION VI – GOVERNANCE, LEADERSHIP AND MANAGEMENT**

#### 6.1 – Institutional Vision and Leadership

6.1.1 – Mention two practices of decentralization and participative management during the last year (maximum 500 words)

The Institute delegates authority and provides operational autonomy to the staff members to work towards a decentralized governance system. The Institute delegates authority for efficient implementation of the policies regarding teaching load distribution and allotment of portfolios to different staff members. Also student assessment and evaluation is delegated to Academic Coordinator. The Director is always open to discussion with the teaching and non-teaching staff which, in turn, encourages the involvement of the staff for the improvement of effectiveness and efficiency of the Institutional progress. There are various committees constituted to manage different institutional activities. Sr.No. Committee/Designation Responsibilities 1 IQAC Coordinator Monitoring quality aspects of activities undertaken 2 Academic Coordinator Monitoring all academic activities on daily basis 3 Guardian Faculty Member Monitoring and motivating student activity 4 Time Table Coordinator Prepare time table of three years including all subjects 5 Chief Examination Officer Smoothly conduct internal exam and university exam 6 Project Coordinator Guiding students on Summer Internship Projects Case study: Academic Monitoring Committee (AMC) Procedure 1. AMC monitors the teaching learning process. It prepares the academic calendar of the institute which is a reflection of University academic calendar that includes curricular, co-curricular and extracurricular activities. 2. Academic calendar is meticulously planned and prepared in advance by AMC coordinator and ensures the proper implementation of the academic calendar. 3. Head of the department is responsible for confirmation and observation of academic activities. 4. AMC coordinator confirm lab and course file audit, does defaulter counseling, takes action against findings, issues appreciation and show cause notice. 5. Departmental AMC does lab and course file audit before commencement of semester and in the middle of semester, random confirmation of attendance once in a month, ensures student and faculty uniform and ID card and takes action on defaulters and gives feedback to AMC. 6. Departmental AMC prepares daily attendance report of each class and submits it to AMC twice a day. 7. Class In-charge ensures smooth conduction of practical and lecture of class, Prepare roll call list, does result analysis, takes feedback and syllabus coverage after 15 days, does student counseling and undertaking two times and takes monthly attendance. 8. Class In-charge conducts average, weak and advance learner activity at class level and gives feedback to department AMC. 1. GFM does batchwise student list, collect students bio-data and conducts meeting with student to resolve their problems. The students whose attendance/performance is poor are identified by

the GFM and the same is informed to the parents through telephonic conversation and by post. 2. GFM collects student participation certificate, undertaking, declaration and leave forms and keeps record of Parent meeting and gives feedback to class In-Charge

## 6.1.2 – Does the institution have a Management Information System (MIS)?

Yes

#### 6.2 – Strategy Development and Deployment

6.2.1 - Quality improvement strategies adopted by the institution for each of the following (with in 100 words each):

| Strategy Type          | Details  |
|------------------------|--|
| Curriculum Development | Here the worthy and important to<br>mention that the institution is<br>affiliated to SP Pune University. The<br>syllabus of every subject to be taught<br>in all affiliated colleges is designed,<br>formed and developed by the board of<br>studies of each subject formed at<br>university level and the same syllabi<br>are executive and followed in every<br>college. The faculties from Institute<br>are participating in the process of<br>syllabus revision. The suggestions<br>regarding the curriculum are conveyed<br>to the University Authorities.  |
|                        | For the quality improvement in<br>teaching and learning and for effective<br>implementation in the institute, the<br>institution has adopted the following<br>strategy during the current academic<br>session. With the initiation of<br>academic session the HOD/Dean in<br>discussion with Director make<br>allotments of work lead in proportion<br>to students strength for each subject<br>taking in to consideration the faculty<br>available for each subject which insure<br>the quality of teaching and learning.<br>Each department prepare teaching plan.<br>Lectures and tutorials are conducted as<br>per the workload allotted. For quality<br>improvement group discussion, question<br>-answer method, seminars are conducted<br>in class by every subject faculty. To<br>make teaching and learning process more<br>interesting and effective faculty make<br>of ICT facilities and other teaching<br>aids. The Teaching Learning process is<br>made effective by using the innovative<br>methods and practices like quiz, role<br>play, models etc. The focus is given on<br>experiential learning through case<br>studies and sponsored projects,<br>participative learning in terms of<br>delivering a seminar, Project Based<br>Learning. |

| Examination and Evaluation                                    | The process of continuous evaluation<br>is employed through various tools like,<br>assignments, online multiple choice<br>questions, unit test and group<br>discussion, practical and preliminary<br>examination. Continuous evaluation<br>helps the student to deal with subject<br>matter, alternative and creative<br>solutions to situations and<br>communication skills. Laboratory work<br>assessment and mock orals are conducted<br>regularly. This provides basis to judge<br>students performance. In addition to<br>conventional method of evaluation,<br>group discussion, field studies,<br>debates, seminars, study tours,<br>competition on different topics are<br>used for indirect assessment. Result<br>analysis of internal assessment is<br>carried out to know PO fulfillments<br>which help to improve the student's<br>progress. Evaluation is based on<br>outcome. Multiple Choice Questions<br>(MCQs) online process has made it<br>possible to convey each and every<br>candidate about their exact<br>performance. This has enhanced<br>effectiveness, efficiency and<br>transparency in the process. Unit test<br>is one of the most used reliable tests<br>to evaluate the performance of<br>students. Continuous assessment is<br>introduced for practical assessment.<br>Preliminary Examination ensures<br>preparation of students for final<br>evaluation. These formative and<br>summative approaches adopted by the<br>institution to measure student<br>achievements have resulted into, Better<br>participation of students in teaching<br>learning process. Improvement in |
|---|---|
| Research and Development                                      | Staff members are motivated to submit<br>their research proposal to different<br>funding agencies, publish their papers<br>in the reputed journals, peer reviewed<br>journals participate in seminar and<br>workshop. Financial assistance is given<br>to attend the conference and workshop.<br>Institute developed a R and D cell,<br>Cohort Cluster and Incubation center to<br>accelerate the interdisciplinary<br>research   |
| Library, ICT and Physical<br>Infrastructure / Instrumentation | The Institute has well stocked<br>library with all the facilities along<br>with a reading room. The students and<br>facilities are motivated to nurture the   |

|                                      | culture of reading. Different events<br>are conducted like Library Day in the<br>Library. Every week the reader of week<br>is announced which inspires other to<br>read.   |
|--------------------------------------|--|
| Human Resource Management            | The Institute offers following<br>facilities to the teaching and<br>nonteaching staff.Group insurance<br>scheme for teaching and non-teaching<br>staff.(policy no-161000421P115741004)<br>Various leaves available to teaching<br>staff are vacation leave, casual leave,<br>medical leave and maternity leave for<br>ladies staff. Employee Provident Fund<br>for staff. Loan facility is available<br>for institute staff through Jaywant<br>Multistate Cooperative Society.<br>Ambulance service is available in<br>campus. Institute provides uniform to<br>non-teaching staff. Institute provides<br>residence to non-teaching staff. All<br>the policies are available to all<br>staff.  |
| Industry Interaction / Collaboration | The Industry Institute Interaction<br>Cell is active and always strive for<br>increasing the industry association.<br>The planning and implementation of the<br>following processes is continuously<br>done in the institute. 1. Signing the<br>MOU with different Industry 2.<br>Organization of the various events like<br>expert talk, workshop from the industry<br>experts 3. Sending students for<br>internship 4. Working on the industry<br>sponsored projects 5. Faculty training   |
| Admission of Students                | Institute has adopted teaching-<br>learning process as student centric<br>system. This demands changes in<br>available teaching-learning material.<br>The major challenge to make available<br>teaching-learning material for students<br>was to train faculties to develop the<br>corresponding material. The required<br>training is imparted to the faculty<br>through 'FDPs'. The required<br>infrastructure for developing such<br>teaching learning material is made<br>available at the institute. This<br>infrastructure includes high end<br>multimedia PCs, software like Moodle,<br>web cameras, etc.With the available<br>resources faculty members have designed<br>and developed interactive teaching-<br>learning material suitable for student<br>centric system. The adaptation of these<br>resources has exhibited improved<br>interest of faculty members and |

| students in updating the course         |
|---|
| content. Students were observed to be   |
| involved highly in learning process     |
| which reflects the success of this      |
| improving teaching learning material    |
| adaptation. The need of advance         |
| learners is also taken care by making   |
| the facility available to them for      |
| registering and attending various MOOCs |
| as per their interest and               |
| recommendations by the concerned        |
| faculty members. This has provided      |
| opportunity to the advanced learner to  |
| get certified through global agencies   |
| and has widened the possibility of      |
| getting employed with the best          |
| employer.                               |

# 6.2.2 – Implementation of e-governance in areas of operations:

| E-governace area              | Details  |
|-------------------------------|--|
| Planning and Development      | The institute has Management<br>Information System called eSamanway<br>which is developed in house. This<br>System eases the maintenance of faculty<br>personal details including faculty<br>qualification, experience, Project<br>guidance details, etc. The system has<br>student information module which<br>contains the academic and personal<br>information about the students. This<br>module turns out to be extremely useful<br>for the Guardian Faculty Member (GFM)<br>Scheme for tracking student attendance<br>and academic progress as well as for<br>the result analysis. Following modules<br>are available in eSamanway: 1.Course<br>Information System 2. Placement<br>Information System 4.Faculty<br>Information System. |
| Finance and Accounts          | Tally ERP 9 is used for all the<br>routine work of the Finance and Account<br>department. The details of all the<br>financial transactions managed through<br>the Tally ERP 9  |
| Student Admission and Support | The Directorate of Technical<br>Education (DTE), Maharashtra<br>facilitates the admissions process. The<br>software developed by MH-CET cell is<br>used to complete the admission process<br>smoothly.   |
| Examination                   | MOODLE (Modular Object-Oriented<br>Dynamic Learning Environment) is a<br>learning management system that is<br>being utilized by our institution to<br>present information and learning  |

experiences for the students. The Moodle platform is an Open Source Learning Management System, mainly aimed at improving the quality of teaching-learning experience and at enhancing flexibility slightly reducing class time. Moodle software is very useful to the Students, Faculty and Management for effective teachinglearning process. Everyone has his/her personal login id and password. Every faculty of the institute uploads study material on Moodle through their login. The assignments and unit test conducted regularly using the Moodle Platform. The assessment also done on moodle and it is available to the Students. The Savitribai Phule Pune University (SPPU) provides support for online recordkeeping of student assessment and results

# 6.3 – Faculty Empowerment Strategies

6.3.1 – Teachers provided with financial support to attend conferences / workshops and towards membership fee of professional bodies during the year

| 6.4.1 – Institution condu   | cts internal and | d external financial | audits regularly | (with in 100  | words each)                   |  |  |  |
| 1. The institute has developed and adopted a transparent mechanism for<br>budgetary preparation, provisioning and auditing leading to effective<br>utilization of resources. The institute has mechanisms for internal and<br>external audit. We have our own internal audit mechanisms where internal audit<br>is an ongoing continuous process in addition to the external auditors to verify<br>and certify the entire income and expenditure of the institute each year. 2.<br>Qualified internal auditors from external resources have been permanently<br>appointed and a team of staff under them do athorough check and verification of<br>all vouchers of the transactions that are carried out in each financial<br>year.Likewise external audit is also carried out in an intricate structured way<br>on quarterly basis. 3. The institute accounts are audited regularly by internal<br>and statuary audits. So far there have been no major findings/ objections.<br>Minor fallacies of lacuna and oversight when pointed out by the audit team are<br>immediately corrected / recruited and precautionary steps are taken to avoid<br>recurrence of such errors in future |                  |                      |                  |               |                               |  |  |  |

#### 7.2 – Best Practices

7.2.1 – Describe at least two institutional best practices

Best Practice I: 1.: Learning through competition. The institute devotes to imbibe skills development among the students to enhance the employability and the various skills such as leadership, marketing, time management, team building, team work etc. The technological changes in the world need to trigger and match the pace of engineering education. 2. Objectives: To develop the design skill and problem solving capabilities. To increase the team building activity To improve leadership quality and management skills. To enhance employment and entrepreneurship ability. To improve decision making ability. To enhance manufacturing skills of students. To improve marketing skills. To enhance purchasing and costing capabilities. To identify the appropriate tools for various operations. To select appropriate manufacturing process. 3. Context: Institutes vision is to impart quality education and to minimize the gap between theoretical and practical knowledge in tune with the vision, priority and thrust, the institute consistently provides motivation, support, and platform for students to inculcate entrepreneurial, leadership, project management and multidisciplinary skills for enrichment of technical competency. Institute is distinctive in providing global platform to student's team to participate in national and international competitions like go-kart and supra, this platform helps students to deal with conceptualizing, designing, fabricating and testing the prototype which helps to minimize gap between theoretical knowledge and practical knowledge. The institute provides necessary financial assistance and resource every year to strengthen such activities. Due to regular schedule of academics selecting the right candidates and formation of the team for the activity is really a tough task due to shortage of time. In spite of busy academic schedule and shortage of time we had to put in extra hours for the manufacturing of Kart. Design of various components as per rule book is a challenging work. Non availability of machines such as Hydraulic bending machine, Notching machine, Laser cutting machine leads to delay in manufacturing activity. Non availability of testing track.Non availability of fixture for steering testing. Wire harnessing and its mounting is a big challenge in this activity. In spite of all these challenges the team put in their best efforts and provided solutions to all these faced challenges. The entire project is completed in the stipulated time frame and also ready to participate in the competitions. The teams of "Black spanners" (Go-kart) and "Iron Head" (SAE Supra) arein action since 2015. This team participates in various national and international events. Teams consistently are representing our institute in various national level events. 4. The Practice All students are informed well in advance by circulating notice regarding formation of team. Schedule of interview is displayed on notice board. Interested Students are interviewed to identify their various technical skills such as hands on design, manufacturing, documentation, modeling, presentation, analytical capabilities. Based on interview results team of passionate and enthusiastic members are finalized. Team is divided into various departments such as design, manufacturing, transmission, brake and documentation. Once departments are finalized various tasks are given to them. Various components are designed as per the criteria laid by rulebook. Selection of material is done based on design and analysis. According to material required, availability of material is checked in the market and quotations are invited from vendors for selecting appropriate vendor. For Cost optimization of the project we compare all quotations of different vendors. Thus we select the specific vendor with good quality material and finalize. Initially we manufacture the chassis of Kart by considering ergonomics and safety of driver. Various mountings such as bumpers, engine, driver's seat, steering wheel, brake are mounted on chassis. After

mounting various components on chassis we perform various tests such as impact tests, crash tests, turning radius tests etc. Along with these tests we also perform tests such as skid pad, acceleration, autocross and brake tests on road. Based on tests results we identify drawbacks and provide solutions to overcome the drawbacks. After carrying out multiple tests and implementing the solutions we conclude our Kart to be fit for the competition. We register for various National and International competitions which are organized all over India. General flowchart of event activities is as follows, 5. Evidence of Success: We have won Best innovation award at Trinity College of Engineering Pune in 2015-16, which indicated the innovative capability of our team and showcased their team building ability. We have won Best CAE award at Zeal College of Engineering Pune in 2016-17, which indicates enhancement in analytical skills of students. Endurance 1st runner up in Zeal Drag 2.0, at Zeal COE Pune in 2017-18, which indicates enhancement in design and foresight of the team to ensure the smooth operation of the kart. Semi-finalist in International Series of Karting, Vishakhapatnam in 2017-18, which showed our outstanding design skills and capabilities and also boosted the moral of the entire team and showed their entrepreneurship abilities. Participation in SAE Supra organized at International Buddha Circuit, at Delhi during 2017-18, which indicates their foresight to compete at national level and exhibit their excellent design work. The success of Go Kart and Supra activities has shown the decision making ability of each team member. Selection of appropriate manufacturing method and carrying out various operations indicates enhancements in manufacturing skills. Presentation of business plan leads to development in marketing skills. Selection of right vendors leads to enhancement in purchasing and costing capabilities of the students. 6. Problems Encountered and Resources required: - Design and analysis of various components in compliance with rule book was a big challenge due to cost effectiveness and viability of the project. We had to ensure that the components, materials selected for the project must be reliable, durable and within budget, as such Selection of materials for various components was a big challenge. Due to time constrain and also selecting the right member for creating the Best Team for the project screening of the right candidates for their best skills was Critical and challenging task. Team members also had to be trained in the shortest period of time due to given stipulated time frame. Due to Non availability of machines such as Hydraulic bending machine, Notching machine and laser cutting machine at Institute, getting these tasks done from outside agency consumed lot of time which lead to delay in manufacturing activity. Due to tight academic schedule and time constrain Short time span is available for the activity. For technical guidance skilled and experienced faculties from various specializations are required. For Design and Simulation of Various components high end design softwares like ANSYS, Hyper mesh etc. are required to be installed to check the feasibility of the components. Various machines and machine tools such as welding machines, grinding machines, drilling machines are required for the manufacturing of the components of the kart. Skilled and technical manpower is required. Standard Design Data Books and Reference books of various subjects are required. 7. Motivation: Students get an opportunity to display their talent, technical skill and managerial skills. Awards and appreciation from various national and international organizers. Appreciation by Faculties and college management. Distinct financial assistance and resources availed by the institute for the Go-Kart and Supra activities.Team members also had to be trained in the shortest period of time due to given stipulated time frame. Due to Non availability of machines such as Hydraulic bending machine, Notching machine and laser cutting machine at Institute, getting these tasks done from outside agency consumed lot of time which lead to delay in manufacturing activity. Due to tight academic schedule and time constrain Short time span is available for the activity. For technical guidance skilled and experienced faculties from various specializations are required. For Design and Simulation

of Various components high end design softwares like ANSYS, Hyper mesh etc. are required to be installed to check the feasibility of the components. Various machines and machine tools such as welding machines, grinding machines, drilling machines are required for the manufacturing of the components of the kart. Skilled and technical manpower is required. Standard Design Data Books and Reference books of various subjects are required. 7. Motivation: Students get an opportunity to display their talent, technical skill and managerial skills. Awards and appreciation from various national and international organizers. Appreciation by Faculties and college management. Distinct financial assistance and resources availed by the institute for the Go-Kart and Supra activities. Best Practice II: 1.: Yoga - Way to satisfy the aspirations of Youth Force. The Sanskrit word YOGA" actually means union with the divine. Institute practices YOGA and Meditation program which aids in improving the overall performance, communication, boosting confidence and focused attention, enhancing creativity and learnability that helps in developing student's leadership and team building skills. Most importantly, it helps in creating harmony and a sense of belongingness in the college campus, amongst students, teachers and the management. 2. Objectives: To inculcate Ethics Moral values in studentpaving the way for improved academic performance. To enhance the ability of the students to handle stressful conditions. To improve relationship between teachers students. To develop an attitude of sensitivity sensibility towards their living environment (i.e. Hostels / Campus).

Upload details of two best practices successfully implemented by the institution as per NAAC format in your institution website, provide the link

https://jspmntc.edu.in/pdf/BestPractices/BestPractices2019-20.pdf

#### 7.3 – Institutional Distinctiveness

7.3.1 – Provide the details of the performance of the institution in one area distinctive to its vision, priority and thrust in not more than 500 words

Institutional Performance in Digital Content Development to Its Vision, Priority and Thrust: Digital learning solution satisfies aspirations of youth force through Techno-Economic Development by enabling them for Continual Learning and from any location any time on any platform and any device. Traditional Educational Resources such as Textbooks, Workbooks and PowerPoint Presentations are flat and are old methods while some advances have been made, such as introducing more video into classrooms and introducing additional practical e-based learning activities. The benefits of educational content that are developed are interactive based on digital environments that utilizes multiple tools within the platform in order to go beyond increasing engagement in students and decreasing upkeep costs for institutions. Students who engage with digital learning environments that are thoughtfully designed and presented in innovative ways are more likely to retain more information and perform better academically. Diversifying content presentation brings the tools beyond a simple "book behind glass" concept and allows learners to interact with content that otherwise might have been a static image in a textbook (whether analog or online) or a slide in a PowerPoint presentation. Some of Interactive Content Development Objects: • Course Presentation • Interactive Video • Memory Game • Flash Cards • Image Pairing • Image Sequencing • Image Slider • E-Book • Time Lines • Drag and Drop • Fill in the Blanks • Questionnaire • Quiz • Impressive Presentation Deploying these tools within an app allows students to connect with, experiment, quiz themselves on and dive deeper into the content presented. By implementing interactive tools in educational content development and production, great learning apps can be created for any subject, discipline or learning level and can serve a diverse range of student populations. Facilities Available: - Video Recording Studio Video Editing Studio Learning

Management System For Dissemination of Content Developed Activities Carried out

For Training of Faculties for Content Development and Workshops Conducted for Content Development: - 1. A 2-Days Workshop for Interactive Content Development 2. Aptitude and Reasoning Video Lecture Capturing and Content Development 3. Interactive Content Creation Workshop for First Year Engineering Courses 4. Video Lecture Creation done for all the subjects of Engineering, MBA and MCA and it is made available to the students in online mode. They can use it at anytime and from anywhere. Out off many video's few video's are listed as shown below and these are made available on YouTube channel as well: Sr.No. Name of the Department Video lecture links 1 First Year Department https://youtu.be/OMWGuwfWGlc https://youtu.be/mzzc6iCS5r4 https://youtu.be/pjeS0h-MIFE 2 Computer Science https://youtu.be/ge68qHlaKBc https://youtu.be/ge68qH1aKBc 3 Civil Engineering https://youtu.be/RJpD0cnDzlc https://youtu.be/zj-WjIy0PXY 4 Mechanical Engineering https://youtu.be/i7qYtvJvoNA https://youtu.be/XQZSy7yy1vQ https://youtu.be/HTrncBsd8oY https://youtu.be/W6jpbijvSHM https://youtu.be/1t4pUqjKC60 https://youtu.be/zf0Krl07qyg 5 Electronics and Telecommunication https://youtu.be/BTAfuvJXddQ https://youtu.be/kFHgbNgYZUg 6 MCA https://youtu.be/AnwYxsdLmgs https://youtu.be/2SK64edFcws 7 MBA https://youtu.be/Y6feldYavJU https://youtu.be/IXKDOcDA\_g0 Fig.1 shows the digital content development cell. Process, Steps and Role and Responsibilities In Development Of Digital Content Development Subject Coordinator a) Adoption of UGC model curriculum for UG course. b) Subject Mapping -Overview on Papers/Topics/Modules. c) Identification of Subject Experts and allotment of Papers/Topics/Modules. d) Vetting of Academic Script provided by Subject

#### 8. Future Plans of Actions for Next Academic Year

We at JSPM Narhe Technical Campus have a procedure to carry out the SWOC analysis after every two years to chalk out the future plan of action to work on Opportunities, Weakness and Challenges and also strengthen the strengths. The Parameters considered for analysis are 1.Curricular and Co-curricular activates 2. Training and Placement activities 3. Industry Institute Interaction 4. Infrastructure Facility 5. Extra Curricular Activities After going through the detailed analysis of all the stakeholder response following Future Plan is chalked out. 1. Starting the preparation for NBA 2. Implementation of Outcome Base Education as per the new NBA guidelines 3.Training of faculties on OBE and NBA 4. Developing a Module Coordinator concept for quality assurance in Teaching Learning Process 5. Maintaining the consistency of good academic results 6. Increasing the Industry Institute Interaction for internship, training and placement activities of students
