Symbiosis Institute of Technology SIT Pune.

Time : 02:30pm to 04:00pm

Venue:- Virtual on Google Meet Platform

Goal: IP-intensive industries employ over 55 million Americans, and hundreds of millions of people worldwide.

Jobs in IP-intensive industries are expected to grow faster over the next decade than the national average.

The average worker in an IP-intensive industry earned about 30% more than his counterpart in a non-IP industry.

The average salary in IP-intensive industries pay \$50,576 per worker compared to the national average of \$38,768.

Objective: Nearly all of the 300 products on the World Health Organization's Essential Drug List, which are critical to saving or improving people's lives around the globe, came from the R&D-intensive pharmaceutical industry that depends on patent protections.

Innovative agricultural companies are creating new products to help farmers produce more and better products for the world's hungry while reducing the environmental impact of agriculture.

IP-driven discoveries in alternative energy and green technologies will help improve energy security and address climate change.

Participants: Participants from class SE-Computer 60 -Student.
